President McIntyre presented a commendation to Julius' Barber Shop who has been a successful Livonia business since 1945.

Vice President Bahr stated that Julius' Barber Shop is having a block party celebrating their 75th anniversary on July 24, 2021.

Cathy White, as Parliamentarian of Council, reviewed the rules for Audience Communication.

During Audience Communication Nancy Klein, 33373 Myrna Court, addressed Council about her termination from the Commission on Aging.

Charles Blackwell, Detroit, Michigan, addressed Council about the *Blackwell vs. City of Livonia* lawsuit that is currently in the Michigan Court of Appeals.

Ilene West, 37639 Kingsbury, requested to have additional time for her Audience Communication to address the Tree Planting Program and Council agreed to extend it.

Councilmember McCullough stated about a month ago we referred a potential new tree ordinance to the Tree Committee, and I'm one of the members of Council that serves on that Tree, USA Committee, so one of our agenda items right now is diving in and looking at all things tree issue related to create an ordinance. I can't speak for any of the trees that have been planted but going forward I'm taking notes, I plan on visiting Kingsbury to actually see exactly what's going on.

Councilmember Toy asked West for her address and West replied 37639 Kingsbury and Toy thanked her and said she would likewise come out.

Regular Meeting of July 12, 2021

President McIntyre informed Ms. West to call the Council Office and leave contact information. The other thing is I would be happy to ask the Administration, get some clarification on the policy about when we put in a tree that was not on the list, and why the policy is as it is.

President McIntyre thanked West for taking the time to come to the meeting tonight.

Marjorie Kapaun, Laurel Woods Condominiums, and Geri Hamlin, 18053 University Park Drive, addressed Council about the changes to the exercise classes at the Senior Center.

President McIntyre stated she wanted to address the issues at the Senior Center. As I've explained and I think all of us has explained is that Parks and Recreation, or Mr. Davis, Ted Davis, is responsible for Parks and Recreation, and also now Community Resources which includes the Senior Center and Greenmead. And Mr. Davis, like all Department Heads, reports to the Mayor. The City Council has no authority or no role in setting policies and programs in any of our departments. But what we can do is communicate concerns that we hear from residents. And we heard from a lot of residents about the changes and I know I did and I believe other council members as well talked to Mr. Davis and made sure that the concerns were understood. And I understand that Marsha is going to be retained as a yoga, I know she teaches a number of classes, she's going to be retained as an instructor with the ability for drop-in classes. And it's also been indicated to me that Mr. Davis is going to spend some time at the Senior Center from time to time hearing input from the people who take the classes and use the Center. So your voices are heard. We can't always change things, we don't have the authority to do so, but we always appreciate the opportunity. This is a very well-run City and a long history of people from the Administration, Department Heads, listening to and working the legislative body, Council. So, thank you for coming here tonight to take the time to thank us for getting involved but we appreciated everyone being engaged and understand the value of those programs.

Councilmember Toy thanked McIntyre and stated I know you did a lot of work on this, as all of us had many of your delightful phone calls and emails, those are awesome. It shows citizen involvement and that's what we need in government, that kind of citizen involvement, whether it's good, bad or indifferent. We need to know those things. As our President pointed out, we're part-time legislators, we don't run the City day to day, that is up to our Mayor and our Department Heads that she chooses. So, I want to thank you for that. And I do want to apologize for any words that were said to some of you by certain people from the City that did say some things that weren't very kind. And some people were very insulted. So, I, as one council member, would like to apologize for that and I don't want to get into details on that but that was uncalled for and I want you to all know we value your input and you going to those classes very much. And

Regular Meeting of July 12, 2021

you are the ones that make that senior center very successful and we appreciate it. Thank you so much.

Councilmember Donovic said to all of the residents and people that use the Senior Center, thank you for emailing me and giving me the phone calls. I'm still working on returning those phone calls, I probably have fifteen more phone calls to go through and emails but I'm doing my best and I've been working through some of those so far. And the people I've spoken to, I definitely understand your concerns. Some of my colleagues made points, at the end of the day every facility has to operate different and understand why there were concerns amongst some of the seniors at the senior facility and I hope that City Council is able to help with some of those issues. And I look forward to talking to the rest of the people that gave me those phone calls and thank you for your citizen involvement.

Cheryl Ely, Valley Wood Condominiums, and Blair Brisson, 29491 Bobrich, addressed Council about problems with GFL.

Vice President Bahr addressed the issues brought up including the erratic pick-up saying he's had calls from residents about this issue and I've experienced it myself just within the past couple weeks. I can tell you as far as the erratic pick-up, that is the result, we're seeing a lot of places, including fast food restaurants right now are just not being able to find enough workers. There is workers making more money staying home than you can doing that and they're struggling to get workers. And that's a direct result of that problem. So, until we get through that, and I'm not sure how that's going to be resolved, I know the company is struggling with that, too, so that was the second point. The third point I want to make was just regarding the large items. I will make probably the same phone call that others have made but I'll make a phone call on that to see if we can get a resolution on that. There may be a simple explanation for it but I've got your address here and I'm pretty confident we can probably get somebody to look into it.

Councilmember Jolly asked if the dumpsters at the complex were City-owned and Brisson replied yes and further discussion was held.

A communication from the Department of Finance, dated June 17, 2021, re: forwarding Quarterly Investment Report for the City of Livonia as of May 31, 2021, was received and placed on file for the information of the Council.

On a motion by Jolly, supported by Toy, it was:
